A long-held passion here at Regenesys has been learning and development throughout one's career.

At the heart of our Corporate Education ethos are curated corporate learning solutions that are bespoke to your company's learning needs and trajectory, aligned to your particular learning and development requirements.

At Regenesys Corporate Education, our team takes pride in being acknowledged experts who partner with our clients, many of whom have been with us for years.

Through our mission of awakening potential, we have fostered and grown sustainable businesses and ethical leaders for over 20 years.

Contact us about partnering with your organisation today and take the next step in future-proofing your business and your talent capital.

**Kapil Jaggeth**

**Chief Executive Officer of Regenesys Corporate Education**

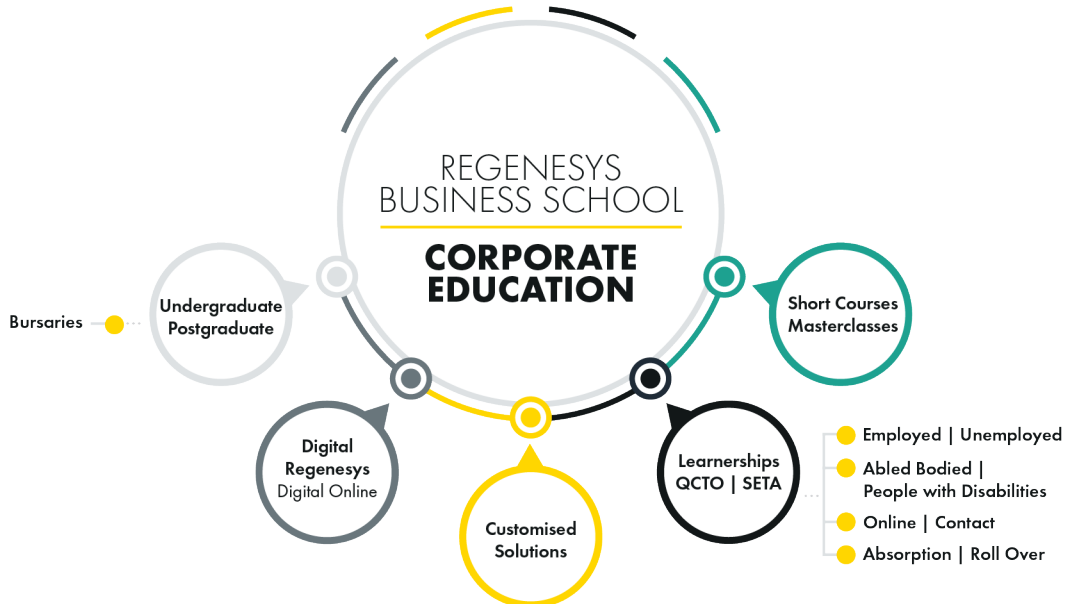

# CORPORATE EDUCATION

Regenesys Corporate Education has a proud track record of offering a wide range of open-enrolment and customised corporate education programmes for senior, middle and junior managers in the business, government, non-profit, and state-owned enterprises sectors. This is in addition to our learnerships, occupational and skills programmes.

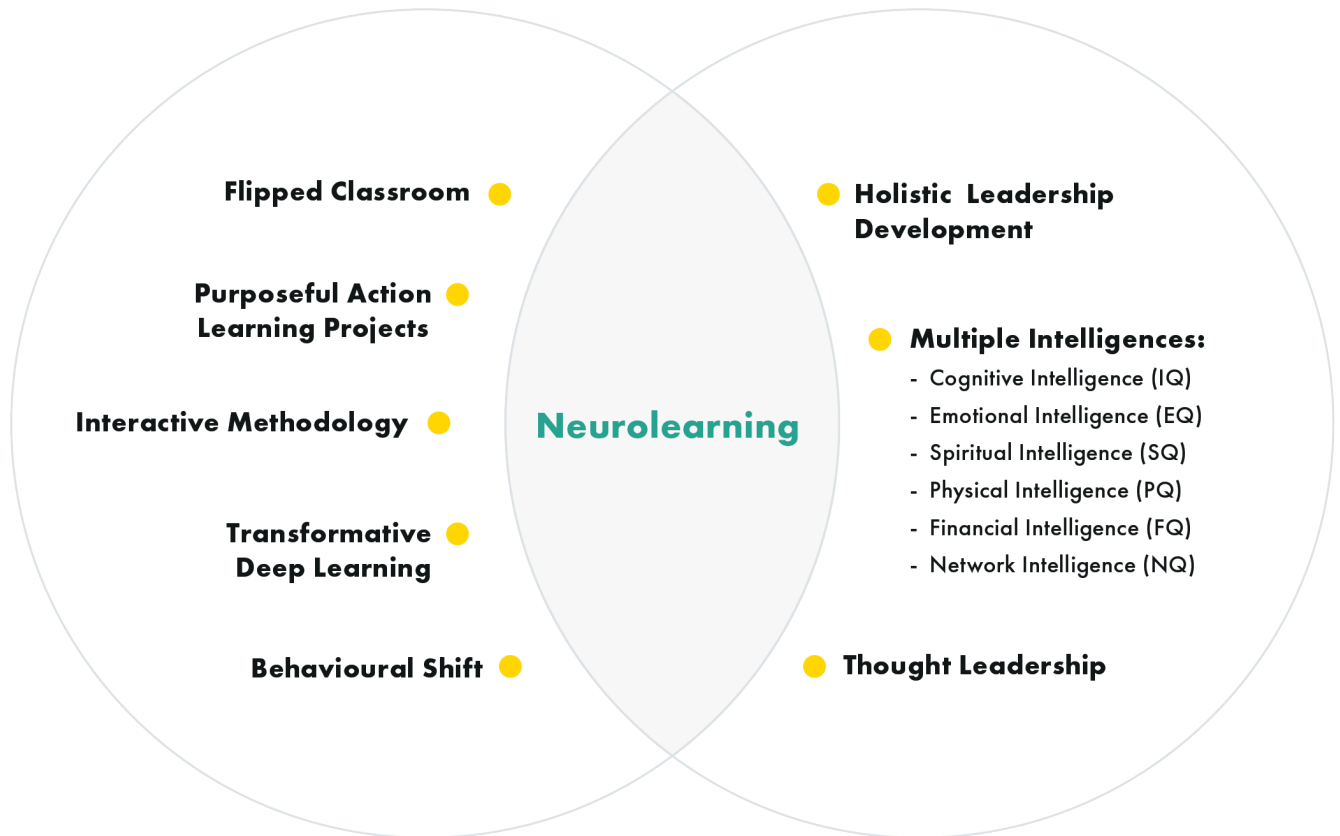

Our highly qualified team of learning and development professionals engages with organisations to develop bespoke solutions based on their specific challenges to maximise productivity, drive innovation, and develop a competitive advantage. Through years of collective experience, this team is committed to delivering a broad and flexible range of customised solutions that are adaptable to the world of work, business, and government.

Over 100 corporate education programmes are offered, focusing on developing generic management and leadership capabilities, including Project Management, Financial Management for Non-Financial Managers, Design Thinking, Strategy, Marketing, HR Management, Innovation, and Emotional and Spiritual Intelligence in Leadership.

Our Digital Regenesys programmes range from Data Science, Cybersecurity, and Coding to Cryptocurrency, AI, and Digital Marketing.

# OUR UNIQUE LEARNING PROPOSITION

# THE REGENESYS DIFFERENTIATOR

**Regenesys' integrated approach to education sets us apart from other institutions and provides a unique value for Corporate Education participants. Ours is a holistic approach that goes beyond enhancing your intellectual intelligence (IQ), but also your emotional (EQ) and spiritual intelligence (SQ).**

By teaching and encouraging students to explore their EQ, they are able to identify not only their own emotions, but also those of others. By effectively harnessing this emotional information, they can guide thinking and performance. The concept of SQ is about helping individuals become aware of their space in the community, the workplace, and the world. In the sense of Corporate Education, this insight creates leaders who are able to construct and implement a holistic approach towards their organisation, benefiting themselves and their colleagues in a number of ways.

Our corporate programmes are uniquely designed to educate, inspire and transform not only the mind, but the heart and soul of our students, to cultivate positive values, attitudes and ethical behaviours required for awakening potential, attaining success in the workplace and to function optimally in an ever-changing world.

### Bursaries, Scholarships and Funding

A number of bursaries, scholarships, and flexible funding options are available to assist students in completing their studies.

### STUDY NOW – PAY LATER

In 2021, EdForAll (Education for All) was launched. It is a groundbreaking online learning initiative whose aim is to give financially disadvantaged but deserving students across the world access to quality higher education for a nominal monthly commitment fee of as little as R500\* per month, interest-free, for the duration of their study programme. After having completed their qualification, and subsequently gaining employment, students then pay the remaining fees via a student loan.

EdForAll empowers students to break out of the vicious cycle of poverty of no education – no job – no money – no education. This revolutionary initiative will enable anyone anywhere in the world the opportunity to obtain accredited, internationally recognised master's and bachelor's degrees, diplomas, and higher certificate qualifications – all without the added financial burden towards obtaining the qualification.

The game-changing education initiative has been made possible by combining education, technology, the internet, financial engineering, and philanthropy. It is based on the principle of 'study now and pay later'.

The need to make a quality education more accessible to millions of people around the world is the genesis of the EdForAll initiative. Taking this challenge head on, the initiatives partners have gone above and beyond to help prospective and deserving students realise their dreams of a better life for them and their families.

We invite you or your corporation to join us to eradicate joblessness and hopelessness through education. EdForAll and its partners, Regenesys Business School, Regenesys Nigeria, Regenesys India, Dananda Talent and StudyAll would be delighted to offer you the opportunity to adopt a student or making whatever other contribution you can to help achieve the vision of a better world for all.

**EdForAll is a registered Public Benefit Organisation approved for purposes of Section 18A(1)(a) of the Income Tax Act No 58 of 1962.**
